

MYCRON STEEL BERHAD E-NEWSLETTER

A New Year of Possibilities

As we step into 2025, we are thrilled to introduce the very first edition of the Mycron Steel Berhad e-Newsletter—our quarterly publication crafted to keep everyone informed of the latest news, updates, and achievements across the Group.

In this e-newsletter, we'll share highlights of our progress, milestones, and initiatives, celebrating the successes that define who we are.

As we gear up for a productive year ahead, let us continue striving for excellence, setting new benchmarks, and achieving even greater success together.

Here's to an exciting year filled with opportunities and accomplishments!

GCEO's Message: Charting the Course for 2025

Dear Mycron Family,

As we bid farewell to 2024, it's an opportune moment to reflect on a year filled with challenges, perseverance, and growth. Despite the hurdles we encountered, our resilience and teamwork allowed us to turn obstacles into opportunities.

Together, we accomplished significant milestones, such as solidifying our market position through strategic partnerships and making meaningful progress in advancing our sustainability initiatives.

Looking ahead, we approach 2025 with cautious optimism and a renewed sense of purpose. As we navigate the opportunities and challenges that lie ahead, I encourage each of you to take ownership of your roles, embrace innovation, and work collaboratively towards our shared vision. Together, we have the potential to overcome obstacles, achieve remarkable milestones, and make 2025 a year of growth, progress, and pride for Mycron Steel Berhad.

Roshan M. Abdullah

MYCRON STEEL BERHAD

KEY UPDATES

Strategic Partnerships:

- ★ **MoU with JFE Steel Corporation:** Mycron Steel Berhad signed a landmark Memorandum of Understanding (MoU) with JFE Steel Corporation on 20 September 2024, one of Japan's largest steel producers, to drive the adoption of green steel solutions in Malaysia.

- ★ **MoU with UTM:** UTM and Mycron Steel Berhad are collaborating to drive green steel production by developing a sustainability monitoring system to decarbonise mid-stream steel industries.
