

MYCRON STEEL BERHAD'S E-NEWSLETTER

A MESSAGE FROM
MYCRON STEEL BERHAD'S
CHIEF FINANCIAL OFFICER

NAVIGATING CHALLENGES, ELEVATING VALUE: OUR PATH INTO 2026

As we approach the end of the year, it is timely to reflect on what has been one of the toughest periods we have faced in recent memory. Throughout the year, we navigated a challenging landscape marked by persistent excess regional steel supply — particularly from China — which continued to exert downward pressure on selling prices and margins. This imbalance in the market has made every quarter an uphill battle, especially as we simultaneously contended with rising operational costs from higher taxation, tariffs, utility rates, and overtime-related expenses which have eaten into our profitability even as steel prices remain depressed.

Looking ahead, 2026 is expected to bring challenges of a similar nature. Market conditions are unlikely to rebalance quickly, and pressures on margins will persist. While we cannot control the external environment, we can control how we respond. To ride through 2026 with stronger performance, we must return to fundamental 'best-practise': commitment to true value-added service. This is not the responsibility of management alone; it is the responsibility of each and every member of our organisation. Whether in operations, sales, logistics, procurement, administration, finance, or technical roles, every employee holds the ability to elevate our competitiveness through the quality of their work, their ownership, and their contribution to the customer experience.

"Value-added" simply means creating more benefit, efficiency, or quality than what is minimally required. It is the difference between doing a task and doing it in a way that strengthens the organisation, improves service, or enhances competitiveness.

As we close out the year, let us take pride in the resilience we have shown, and let us enter 2026 with renewed clarity and focus. By getting the basics right and by continuously adding value in every function, we can strengthen our position despite the headwinds and push for better results in the year ahead. For and on behalf of the Group's Management, we wish you all a happy festive season ahead. Happy holidays too.

Best Regards,
Choo Kah Yean
Group CFO

HERE'S WHAT IT MEANS IN PRACTICAL, JOB-BY-JOB TERMS:

1. Operations / Production

- Reducing rework, waste, and defects
- Improving consistency, output quality, and delivery lead time
- Maintaining machines properly to avoid downtime
- Identifying cost-saving opportunities
- Improving process efficiency and safety
- Providing technical solutions that enhance production & product performance
- Supporting operations with improvements and troubleshooting

2. Sales & Customer Service

- Understanding customer needs thoroughly
- Offering the right product mix, technical guidance, and solutions
- Providing accurate information, timely responses, and proactive follow-up

3. Logistics & Inventory

- Ensuring accurate, on-time deliveries
- Minimising damage, errors, and handling inefficiencies
- Keeping inventory accurate and traceable
- Minimise holding-cost wastage on suboptimal inventory-aging profile

4. Procurement

- Securing materials at competitive prices
- Managing supplier performance and reliability
- Reducing unnecessary costs through smarter sourcing.

MSCRC Achieves ISO 45001:2018 Certification

Congratulations to MSCRC on achieving ISO 45001:2018 certification, a significant milestone towards a safer workplace.

MYCRON PINK OCTOBER

In support of Pink October, Mycron Steel Berhad collaborated with BCWA on **2 October 2025** to raise breast cancer awareness and provide free examinations, reinforcing the importance of early detection.

MYCRON MOVEMBER – HEALTH AWARENESS PROGRAMME

In support of Movember, Mycron Steel Berhad organised a men's health awareness session on **6 November 2025** featuring a prostate health talk by Dr. Nur Masyithah Ma'arof from Ara Damansara Medical Centre (ADMC), followed by a free health screening for employees.

SUSTAINABILITY: MSB TEXTILE FABRIC RECYCLING PROGRAMME

MSB recycled **210 kg** of textile waste through the Textile Fabric Recycling Programme held from **20 to 27 November 2025** across CRC and MST, supporting landfill diversion efforts.

The initiative also encouraged employees to practise sustainable recycling at both workplace and household levels, with a recycling report and certificate from Kloth expected in early January.

CSR: MSB CHRISTMAS VISIT TO PERSATUAN KEBAJIKAN SAYAP KASIH MALAYSIA (IQ70+)

In the spirit of Christmas, on **23 December 2025**, MSB carried out a CSR visit to Persatuan Kebajikan Sayap Kasih Malaysia (IQ70+), a welfare home supporting children with intellectual disabilities and senior citizens.

The team contributed essential supplies worth RM3,500 and organised simple festive activities, including greeting sessions, colouring, and interactive engagement, bringing joy to the residents.

Congratulations to all
winners and participants.

SPECIAL EDITION

WELCOME TO THE YEAR OF FIRE HORSE 2026:

DATE:

Begins: 17 February 2026
Ends: 7 February 2027

WHY IS IT RARE?

Fire Horse (丙午年) appears only once every 60 years. The next one after 2026 will be 2086 —most of us won't see another in our working life.

THE “FIRE x HORSE” COMBINATION = SUPER ENERGY

Horse = movement, drive, speed
Fire = passion, ambition, transformation

TOGETHER, THE FIRE HORSE IS BELIEVED TO BRING:

Strong motivation
Big changes
Fast progress
Bold decisions
Innovations and transformations

THIS MAKES 2026 IDEAL FOR:

- ✓ new projects
- ✓ new ideas
- ✓ company improvements
- ✓ personal growth

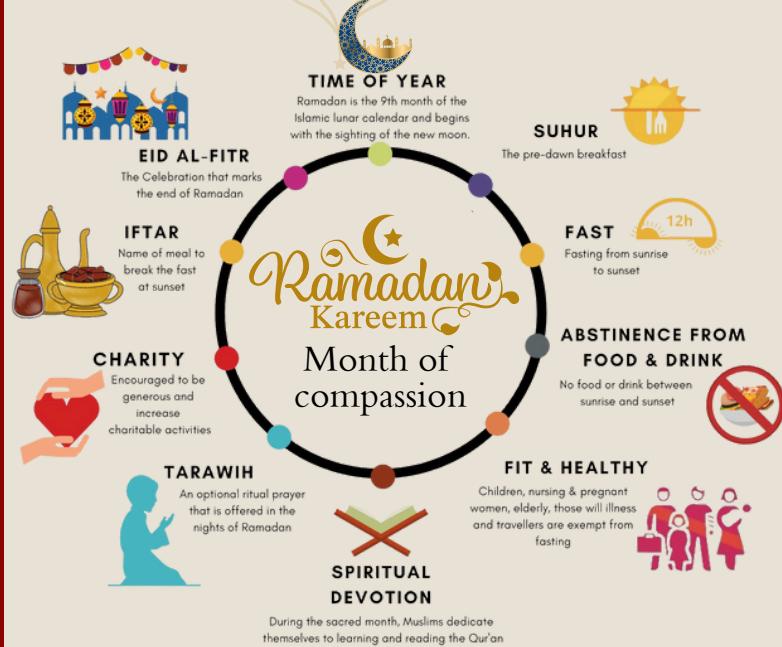

ARE YOU READY FOR RAMADAN 2026?

WHAT IS RAMADAN?

Fasting in Ramadhan is one of the FIVE Pillars of Islam

Ramadhan is when the Quran was revealed to Prophet Muhammad ﷺ

The ultimate goal of fasting is to gain greater God-consciousness, known as TAQWA, signifying a state of constant awareness of God. from this awareness a person should gain discipline, self-restraint & greater incentive to do good and avoid wrong

NIAT FOR RAMADAN

نَوْيَتُ صَوْمَ شَهْرِ رَمَضَانَ كِلَّهُ لِلَّهِ تَعَالَى

Nawatu sauma syahri romadhana
kullihi lillahi ta'ala.

I intend to fast throughout Ramadhan this year as a fardhu because of Allah Ta'ala.

Sahaja aku berpuasa sebulan di bulan Ramadhan kerana Allah Taala.

TIPS KESELAMATAN ELEKTRIK & GAS DI MUSIM PERAYAAN

TIPS KESELAMATAN ELEKTRIK & GAS DI MUSIM PERAYAAN

ORANG RAMAI DIINGATKAN UNTUK AMALKAN
TIPS BERIKUT:

KESELAMATAN ELEKTRIK

Pastikan alat elektrik:

- Mempunyai label keselamatan SIRIM-ST
- Dalam keadaan sempurna & tidak diubahsuai peralatan yang rosak

Jangan tekan suis elektrik dengan tangan basah
Jangan guna telefon bimbit ketika sedang dicas
Jangan guna soket dengan kelengkapan elektrik berlebihan / beban yang tinggi

Matikan semua suis & peralatan elektrik yang tidak perlu sebelum pulang ke kampung / pergi bercuti

Jangan gantung perhiasan perayaan pada tiang / tali elektrik / pepasangan elektrik

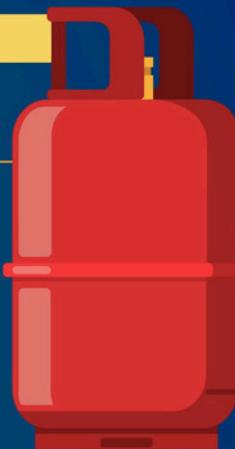

Uji keberkesanan Peranti Arus Baki (PAB) sekali sebulan

- Tekan butang uji 'T'
- Jika berfungsi baik, ia akan terpelantik bekalan elektrik terputus serta-merta
- Ini dapat lindungi pengguna daripada terkena renjatan elektrik sekiranya ada kebocoran arus
- Dapatkan perkhidmatan kontraktor elektrik berdaftar untuk gantikan PAB rosak / ubah suai pendawaian elektrik di rumah

KESELAMATAN GAS

- 1 Pastikan alat pengesan kebocoran gas berfungsi baik
- 2 Pastikan alatan dapur gas:
 - Mempunyai label keselamatan SIRIM-ST
 - Dalam keadaan sempurna
- 3 Tutup injap gas jika pulang ke kampung / tinggalkan rumah

4 Jangan letak barang panas di atas silinder gas

5 Jangan beringkan silinder gas ketika memasak

6 Dapatkan khidmat kontraktor gas berdaftar untuk baiki perpaipan gas di rumah
